===================

The content in this directory is "sgiconv.taz".
It is the result of "compress" after "tar" about following files.

```
  File Name     Version  Release Date    Brief Explanation
  ----------------------------------------------------------------------
  dxf2rsd       2.81     96/04/25        Converter from DXF to RSD
 *hmd.def       1.20     98/04/21        Constants and macros for labp
  labp          1.12     98/01/12        Label Processor, HMD assembler
  meshconv      1.2      98/01/12        MSH (one of extended RSD files) creator
  mimefilt      1.51     96/04/01        MIMe difference file creator
  mimesort      2.1      96/06/11        TMD vertex information sorting tool
 *mkmime        1.11     98/04/21        MIMe HMD creator
  mktod         1.4      96/05/01        TOD creator
  rgb2tim       2.1      96/04/01        Converter from RGB to TIM
  rsd2dxf       1.00     96/04/01        Converter from RSD to DXF
  rsd2hmd       1.5      98/01/12        Converter from new RSD to HMD
  rsdcat        1.06     97/08/18        RSD catenation tool
  rsdform       1.81     96/04/01        RSD modification tool
  rsdlink       3.72     96/10/01        Converter from RSD to TMD
  rsdup         1.1      98/01/12        Converter from RSD to new RSD
  timpos        1.1      96/05/01        TIM VRAM address changing tool
  tmd2pmd       1.14     96/04/01        Converter from TMD to PMD
  tmdinfo       1.25     96/04/01        TMD information tool
  tmdsort       1.25     96/04/01        TMD sorting tool
 *xhmd          1.16     98/04/21        HMD dis-assembler
```
